24.7m FOIL ASSISTED CATAMARAN PASSENGER FERRY

Our Ref: PF 7629

This 24.7m Foil Assisted Catamaran Passenger Ferry is now firmly available for sale with delivery in Los Angeles. Our office has been appointed by the owners to offer this vessel for sale, and we are able to pass on extensive further details. This vessel is current in ABS class and also has Coastwise approval for offshore exposed seas for 100nm. It is also fitted with a cargo / freight handling system where pallets can be loaded in to each hull via telescopic I-Beams on to rollers. There is storage for 8 pellets per side of up to 450kg each. The navigation system has also been upgraded to comply to latest USG with an additional highspeed scan radar system. Please contact our office for further details.
